

CHRIS AND CREW

**Chris and crew your every day
Starts with a smiling face
Bringing comfort to others
In a very stressful place**

**Arriving at the Chamber
Our thoughts so full of gloom
But comforting words from you
Are like sunshine in the room**

**Sitting in the waiting room
As the patients wait to dive
Laughter soon fills the air
And the Chamber comes alive**

**It's like one happy family
Who have everything to gain
People putting trust in you
To heal and relieve the pain**

**It's not drugs or the medicine
But just a friendly smile
Will help the patients forget
Their problems for a while**

**A miracle before our eyes
The treatments now are thru
Our many thanks to Chris
And the Chamber crew**
